

Flexible Tube-in-Tube Heat Exchanger

Recorable Coaxial Hose

Control your material temperature where it matters;
all the way to the point-of-application.

*Design allows the
core tube (usually Teflon)
to be easily replaced in
the field.*

*Recorable coax hose
implementation in a
gun spray application*

- Ideal for Paint Applications
- Flexible Tube-in-Tube Heat Exchanger
- Perfect for Controlled Motion Applications
- Non-Conductive Version Available for Electrostatic Applications
- User Selectable Inner Tube Material
- Inner Tube Easily Replaced Whenever Desired
- Compatible with both gun and bell dispensing systems

US Patent #9,952,001
